# IDINA

*According to the World Bank, around 850 million people worldwide do not have a legal identification document.*

IDINA is developing a platform to effectively and inclusively guarantee the identity of all citizens in countries with insufficient or no civil registry infrastructure, helping to build an increasingly fair and equal society.

## Goals

Ensure access to:

Civil Rights

Social Protection

Health Care

Education

Economic Activities

Political Processes

## Team

"IDINA materializes technological innovation as a mechanism for improving people's quality of life, even those with limited access to these technologies."

**João Marco, INESC TEC**

"Many are those who are born, grow up, live and die without ever having access to official registration. IDINA aims to fill this gap by setting a reliable source of identification achievable by everyone."

**Silvia Garcia, INCMLab**
